

Brush Prairie Signage

We already have some posts, brochures w/boxes, and plan to install ourselves. We want *standard* (not custom size, quality, etc) aluminum signs that cities and counties use. We believe they are high grade vinyl on aluminum sign blanks w/holes for attaching to posts. However, this is not mandatory and the existing parks have some kind of 1/2" board w/vinyl 24x36 rule signs. So, we are somewhat open to ideas. DOGPAW is a non-profit and willing to discuss advertising (cards, flyers, banners, and logo-link) barter to keep costs down. Items:

- 3 qty: U-Channel Posts w/bolts – 8' Galvanized, to be pounded.
- 1 qty: No Parking – 12" x 18".
- 1 qty: Leash Law – 12" x 18" [Attached (both parking/leash) to one u-channel post].
- 2 qty: Rules – 24" x 36" [Attach w/existing brochures in existing boxes to u-channel posts].
- 1 qty: Main Entrance – 11" x 8.5" or 5.5" x 4.25".
- 1 qty: Small / Shy Entrance – 11" x 8.5" or 5.5" x 4.25".

[Flag style, main mounted on the *right* and small mounted on the *left* to an existing timber post].

- 1 qty: Driveway – 12" x 18" [Attached to existing drive-in gate].

That comes to 3 posts, 6 designs and 7 signs that are pictured below. See our header for the link to rules or contact kathleenh@clarkdogpaw.org for more details. Please provide a quote w/eta.
